NETINVEST MET MASTS – GUYED LATTICE TOWERS

UP TO 140m HEIGHT!

The NET family of met masts is designed for Wind Resource Assessment as a wind farm design input.

Standard heights: 80m, 100m, 120m and 140m.

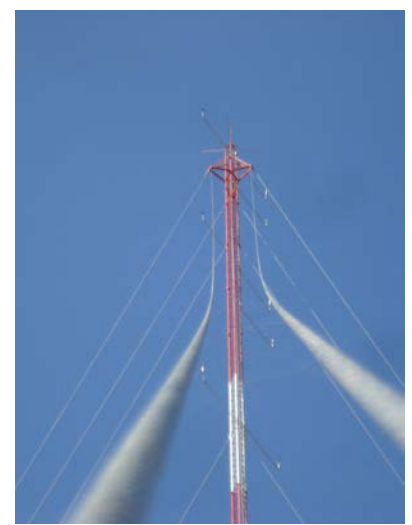

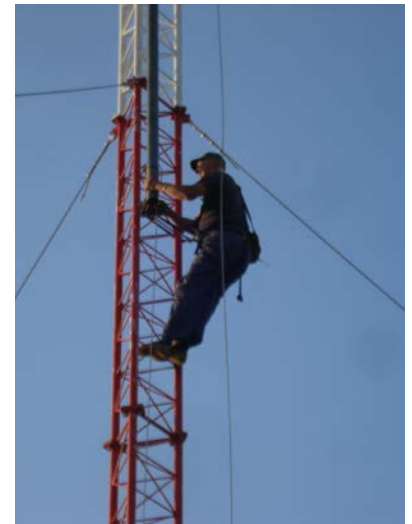

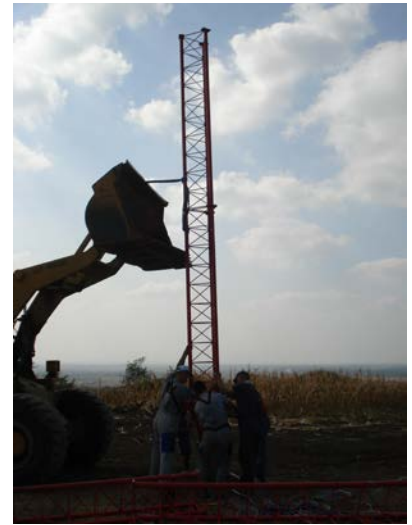

Lattice construction offers quality and durable solution, suitable for long term usage.

Construction type allows easy climbing for regular maintenance and checking.

Design according to SRPS (Serbian standards) and other relevant EN and ISO standard.

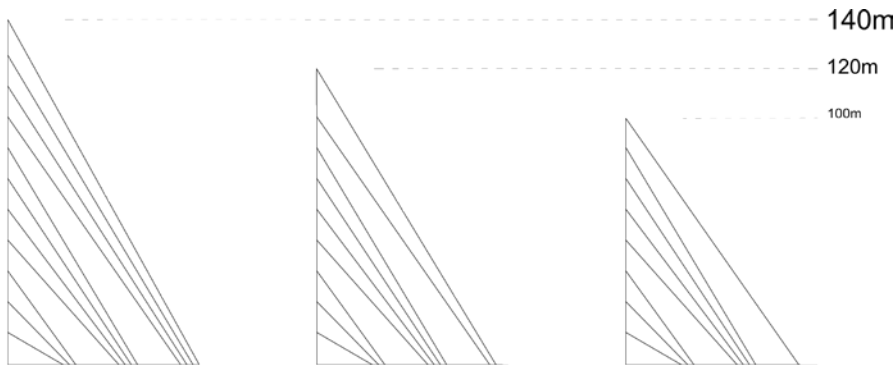

Purchase or rent options available.

Customized heights and settings also available!

GUYED LATTICE TOWERS – INSTALLATION PROCESS
